**PRE
GIO
COUTURE**

**FALL - WINTER
2016/17
COLLECTION**

Dear Agents,

**Pregio' Couture
Is updating!**

**Have you already
given a glance at
the interactive
look book?
Here we propose
you the best way
to present and
promote the
collection!**

***Vi suggest you to
present the
collection by
mixing the styles
in order to offer
the most original
and winning
proposal to the
customer!***

**Here is the inevitable black, smoothly shading into
the tie printing "ton sur ton" grey fabric.**

**Then it's time for the dusty sky color and the
bright blue, anticipated by the softness of one
of the cloacks included in the collection.**

The ice blue vest and short jacket bring a young touch; then follow the navy and cerulean blue styles in contrast with the beige and green petrol ones.

Make way to the patterned!

The black and white tie printing is dominant in different fabrics, together with the classical plain colors.

For a versatile woman, both casual but always extremely elegant.

Let's repropose the black in different kinds of fabric including the fake leather, embossed fabrics and much more ...

The collection is lighted up by a bright red that together with the black and white twill pattern animates the everlasting black styles.

Bordeaux, pastel and black color dedicated to a determined and graceful woman who wants to be simple but tasteful.

***And finally an idea for those who want to dare!
Bright colors, precious elements and various kinds of fur.***

***We thank you for your kind
attention and we hope that
you enjoyed the collection.
The images that we have just
offered represent our way
of putting together the
styles, so please consider this
as a reference point.***

Thank you!
