La música y su capacidad de hacernos sentir es la fuente de inspiración de la nueva colección AW 23/24.
Una canción puede transportarnos, conectarnos con otras personas y emocionarnos al mismo tiempo.
Es una corriente artística que ha ido siempre ligada a la moda. Ambas crean tendencia y representan la identidad visual de diferentes generaciones. Se complementan y coexisten en perfecto equilibrio.
Las dos son un estímulo para crear.

Music and its ability to make us feel is the source of inspiration for the new AW 23/24 collection.
A song can transport us, connect us with other people and move us at the same time. It is an artistic current that has always been linked to fashion. Both music and fashion create trends and represent the visual identity of different generations. They complement each other and coexist in perfect balance.
Both are a stimulus to create.

Some winter days have a special rhythm.
We wander the neighbourhoods of our city that mix
culture and diversity.

And then we browse treasures in vintage record stores. While we share
a coffee, we hum the melody that has been with us all morning
and evokes moments that we like to remember.

Our new pieces blend retro essence
with the most current design.

Nuestra sensibilidad por el medio ambiente nos lleva a elegir fibras de origen natural para la mayoría de las prendas. Seguimos ampliando la línea de básicos en suave algodón orgánico y apostamos por fibras recicladas, tanto en algunas de nuestras prendas de punto como en prendas exteriores acolchadas. Utilizamos la viscosa sostenible @Ecovero en vestidos y camisas estampados.

Diseñamos de forma consciente para componer un futuro mejor.

Our sensitivity towards the environment informs our decision to select fibres of natural origin for most of the garments. We continue to expand the line of basics in soft organic cotton and are committed to recycled fibres, in some of our knitwear and as well as our padded outerwear. We use the sustainable viscose @Ecovero in print dresses and shirts. *We consciously design towards a better future.*

[FR]

Notre engagement pour l'environnement nous amène à choisir des fibres naturelles pour la plupart de nos vêtements. Nous continuons à développer notre gamme de basics en coton bio doux et nous tenons le pari des fibres recyclées, à la fois dans certains de nos tricotés et dans les vêtements d'extérieur rembourrés.

Nous utilisons la viscose durable @Ecovero dans nos robes et nos chemises imprimées.

Notre design se fait en toute conscience afin de tisser un meilleur avenir.

La nostra sensibilità nei confronti dell'ambiente ci porta a scegliere fibre di origine naturale per la maggioranza dei capi. Continuiamo ad ampliare la linea basic in morbido cotone biologico e puntiamo sulle fibre riciclate sia per alcuni capi di maglieria che per i capispalla imbottiti.

Utilizziamo la viscosa sostenibile @Ecovero per abiti e camicie stampati.

Creiamo in modo consapevole per costruire un futuro migliore.
