Sustainability is also an art

As in each collection, we use natural fibres in most of our clothing. We create environmentally sensitive fashion. We are especially committed to organic cottons, sustainable fibres like linen, Tencel and Eco Vero viscose and recycled polyester for the most technical pieces. This is our way of taking care of the planet and the women who inhabit it.

Il percorso delle donne artiste nella storia è stato arduo. Hanno lottato per avere una formazione, per diffondere il loro lavoro e per ottenere il riconoscimento che la loro opera meritava. Molte sono state ridotte al silenzio, solo alcune sono riuscite a dare visibilità al loro talento e a lasciare il segno in ambito artistico. La collezione Yerse SS23 è dedicata a tutte loro e alla forza creativa dell'anima artistica femminile.
