SPRING-SUMMER 24 COLLECTION

YERSE

ESPAÑOL

La nueva colección SS24 se inspira en las abstracciones naturales. Descubrimos siluetas contemporáneas en tejidos livianos, con estampados en forma de estrellas que nos recuerdan el corazón de una flor de la pasión. Los vestidos femeninos se visten de pequeños motivos repetitivos, como si fuesen huellas de cangrejos sobre la arena. Piezas de aire artesanal en crochet se mezclan con estampados vitales de flores exóticas. Diseños sofisticados de cuerpos drapeados evocan un infinito mar de dunas. Observamos los reflejos ondulados del Mediterráneo para crear estampados de formas difuminadas, que plasmamos en algodón orgánico. Las geometrías ampliadas de los corales, nos llevan a reproducir estructuras celulares sobre creaciones de viscosa ECOVERO™ que adquieren personalidad con el movimiento.

Todo este universo orgánico convive con piezas románticas de punto. Lo natural se mezcla con lo bucólico en shorts y tops de puntos muy trabajados con detalles de volantes. Pijamas reinventados se transforman en outfits urbanos. La monotonía se rompe con conjuntos informales en rayas multicolor. Los convencionalismos desaparecen. Vestidos con motivos tie & dye de espíritu psicodélico aportan una explosión de color. Y monos estampados de siluetas modernas nos empujan a disfrutar del verano sintiéndonos libres.

ENGLISH

The new SS24 collection is inspired by natural abstractions. We discover contemporary silhouettes in light fabrics, with star-shaped prints that remind us of the centre of a passionflower. The women's dresses boast small repetitive motifs, as if they were crab footprints on the sand. Handmade crochet pieces are mixed with vital prints of exotic flowers. Sophisticated designs of draped bodies evoke an infinite sea of dunes. We observe the wavy reflections of the Mediterranean to create prints of blurred shapes, which we capture in organic cotton. The enlarged geometries of the corals inspire us to reproduce cellular structures on ECOVERO™ viscose creations that acquire personality with movement.

This whole organic universe coexists with romantic knitted pieces. Nature combines with the bucolic in shorts and highly elaborated knitted tops with ruffle details. Reinvented pyjamas are transformed into urban outfits. Monotony is disrupted with informal sets in multicoloured stripes. Conventions disappear. Tie-dye motif dresses with a psychedelic spirit provide an explosion of colour. And printed jumpsuits with modern silhouettes push us to enjoy the summer while feeling free.

FRENCH

La nouvelle collection SS24 s'inspire d'abstractions naturelles. Les tissus légers, avec leurs imprimés en forme d'étoile rappelant le cœur d'une fleur de la passion, laissent entrevoir des silhouettes contemporaines. Les robes des femmes sont habillées de petits motifs répétitifs, comme des traces de crabe dans le sable. Des pièces au crochet fabriquées à la main sont mélangées à des imprimés vitaux de fleurs exotiques. Des modèles sophistiqués aux corps drapés évoquent une mer infinie de dunes. Nous observons les reflets ondulants de la Méditerranée pour créer des impressions aux formes floues, que nous capturons dans du coton biologique. Les géométries agrandies des coraux nous amènent à reproduire des structures cellulaires sur des créations en viscose ECOVERO™ qui acquièrent de la personnalité avec le mouvement.

Tout cet univers organique cohabite avec de romantiques pièces de maille. Le naturel se mêle au bucolique dans des shorts et des tops en maille très élaborés et ornés de détails à volants. Les pyjamas réinventés se transforment en tenues urbaines. La monotonie est rompue par des tenues décontractées à rayures multicolores. Les conventions disparaissent. Les robes à motifs psychédéliques tie & dye apportent une explosion de couleurs. Et les combinaisons imprimées aux silhouettes modernes nous poussent à profiter de l'été en toute liberté.

ITALIAN

La nuova collezione SS24 si ispira alle astrazioni della natura. Scopriamo silhouette contemporanee in tessuti leggeri con stampe a forma di stella che rammentano il cuore della passiflora. Gli abiti femminili si vestono di piccoli motivi ripetitivi, come piccole orme di granchi sulla sabbia. Capi all'uncinetto dall'aria artigianale si mischiano con stampe vitali di fiori esotici. Disegni sofisticati di corpi drappeggiati evocano un mare infinito di dune. Osserviamo i riflessi ondulati del Mediterraneo per creare stampe dalle forme sfumate, che plasmiamo su cotone biologico. Le geometrie estese dei coralli ci portano a riprodurre strutture cellulari su creazioni di viscosa ECOVERO™ che acquisiscono personalità con il movimento.

Tutto questo universo organico convive con romantici capi in maglia. Il naturale si mischia al bucolico in short e top in maglia molto lavorati con volant. Pigiami reinventati si trasformano in outfit cittadini. La monotonia viene spezzata da insiemi informali a righe multicolori. Le convenzioni svaniscono. Vestiti con motivi tie & die dallo spirito psichedelico regalano un'esplosione di colore. E tute stampate dalla silhouette moderna ci stimolano a goderci l'estate in libertà.
